CHETAN SHANTARAM LOKHANDE
ASP.NET Full Stack Developer
+91 7499742968 | clokhande658@gmail.com | LinkedIn | GitHub | Jalgaon, Maharashtra

PROFESSIONAL SUMMARY

Master of Computer Application currently working as Full Stack Developer Intern at RBIS Technology Pvt. Ltd. Skilled in C#, ASP.NET Core, Angular, SQL Server, HTML, CSS, JavaScript, Entity Framework Core, and REST API development. Experienced in building responsive, database-driven web applications and integrating RESTful APIs using modern development practices Seeking an entry-level Software Developer / Full Stack Developer role to contribute technical expertise and grow as a software professional.

TECHNICAL SKILLS

Languages: C#, SQL, C++, Python, PHP,C
Web Technologies: HTML5, CSS3, JavaScript, Angular, TypeScript
Frameworks & Technologies: ASP.NET Core, ASP.NET Web API, Entity Framework Core, RESTful APIs, MVC Architecture, JWT Authentication, N-Tier Architecture
Databases & Data Storage: SQL Server, MySQL, PostgreSQL, MongoDB
Tools & Platforms: Visual Studio 2022, VS Code, Git, GitHub, Postman, SSMS, MongoDB Compass, pgAdmin, Swagger
Soft Skills: Problem-Solving, Teamwork, Effective Communication, Adaptability, Willingness to Learn

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern | RBIS Technology Pvt. Ltd., Pune, Maharashtra | Jul 2026 - Present

- Building web applications with Angular on frontend and ASP.NET Web API / RESTful APIs on backend
- Developing data access and business logic using Entity Framework Core, ASP.NET Web Forms, and SQL Server
- Technologies Used: Angular, ASP.NET Web API, Entity Framework Core, PostgreSQL Server, Swagger

PROJECTS

FinTrust - Fixed Deposit (FD) Management System
Technologies: Angular, TypeScript, ASP.NET Core Web API, C#, Entity Framework Core, SQL Server, N-Tier Architecture

- Designed and developed comprehensive Fixed Deposit management system with N-Tier architecture (BAL, DAL, and UI layers) for robust financial data processing and security
- Built custom Financial Calculator and FD Schedule Engine in C# to automate complex interest calculations, maturity projections, and cash flow scheduling
- Developed responsive Single Page Application (SPA) using Angular and TypeScript featuring secure authentication workflows and interactive dashboards
- Implemented role-based approver module enabling multi-level authorization for processing Fixed Deposit requests with approval workflows
- Integrated Entity Framework Core for efficient database operations, ensuring data integrity for investment records and interest transactions

Employee Leave and Attendance Management (LeaveTrack)
Technologies: Angular, TypeScript, ASP.NET Core Web API, C#, SQL Server, HTML, CSS, JWT Authentication

- Developed comprehensive leave and attendance management system to streamline employee leave applications, holiday tracking, and administrative approvals for enterprise-level operations
- Designed and built responsive Single Page Application (SPA) using Angular framework with TypeScript for type-safe component development
- Developed robust ASP.NET Core Web API backend with clean architecture, implementing CRUD operations and business logic for leave and attendance processing
- Implemented Entity Framework Core ORM for efficient database interactions with SQL Server, ensuring data integrity and optimization
- Built role-based access control (RBAC) system enabling different permission levels for employees, managers, and administrators
- Created interactive admin dashboards for tracking leave balances, attendance reports, and employee performance analytics
- Implemented dynamic leave-type management features allowing flexible leave policy configuration

PropTrail - Property Management System
Technologies: Angular, TypeScript, ASP.NET Core Web API, C#, SQL Server, HTML, CSS, JWT, Geolocation APIs

- Developed full-stack property listing platform for real estate management with advanced search and multi-criteria filtering capabilities
- Designed Angular frontend with responsive UI components using modern design patterns and best practices for seamless user experience
- Built comprehensive REST API backend with ASP.NET Core Web API handling property CRUD operations, filtering, sorting, and pagination
- Implemented interactive property search with advanced filters (price range, location, property type, amenities) and Google Geolocation API integration
- Created comprehensive admin dashboard for property management with analytics, reporting capabilities, and property statistics visualization
- Implemented JWT-based authentication and authorization ensuring secure user access and data protection across the application
- Optimized database queries and API performance using SQL Server indexing and Entity Framework Core query optimization techniques

EDUCATION

Master of Computer Application (MCA) - Pursuing | School of Computer Science, Kavayitri Bahinabai Chaudhari North Maharashtra University, Jalgaon
B.Sc. (Computer Science) | CGPA: 9.21 | 2023 - 2026 | SOCS, North Maharashtra University
Class XII | 77.33% | 2023 | J.E. School and Jr. College, Muktainagar
Class X - 91.60% | M.M. Narkhede Vidhyalay, Ruiakhede
